Arkema to showcase Rilsan® Fine Powders at Aquatech 2013 exhibition with its partner Viking Johnson

Arkema's is exhibiting its Rilsan® fine powders jointly with Viking Johnson (stand 305, Hall 1) at Aquatech 2013, from 5-8 November in Amsterdam. Aquatech is the world's leading trade exhibition on process, drinking and waste water technology.

Rilsan® fine powders coatings have been used since 1967 in the water industry for coating pipes, pumps, valves and fittings. It is a unique high performance polyamide manufactured from a renewable resource of plant origin, castor oil.

Rilsan® fine powders coated parts withstand extreme abrasive media, the coating provides excellent protection against corrosion and mechanical impacts, and it complies with various regulations for drinking water.

Rilsan® coated carbon steel is also a cost-effective and technical alternative to stainless steel providing protection and longevity in the most demanding environments, which makes it a material of choice for the seawater transportation.
