## Arkema Inc. adds more languages to its Forane® refrigerant mobile P/T app for iPhone® and Android®

**The upgraded Forane® Refrigerant Pressure and Temperature Calculator App will allow for a far reaching global use, with the addition of four new languages.**

The Forane® refrigerant P/T app is an essential aid for on-the-go refrigeration and AC professionals working in the field. The Forane® P/T app enables users to input pressure or temperature readings easily, receiving all corresponding values immediately. The P/T app also provides quick calculation for subcooling and superheat values as well as helpful descriptions and chemical properties of available Forane®-brand and generic refrigerants.

The latest app is updated with Chinese, Japanese, Russian, and French languages for users across Europe and Asia. Users can easily toggle between a total of eight languages, including Spanish, Portuguese, Italian, and English, directly from the in-app menu.

Arkema is a leading manufacturer of HCFC and HFC Forane®-brand refrigerants and is an innovator of sustainable, next generation, low-GWP refrigerant products. Forane® refrigerants are commonly used in a variety of cooling and freezing applications, such as air conditioning, appliances, automotive, construction, food processing, industrial refrigeration, and supermarkets.

Download the Forane® Pressure/Temperature mobile app from the iTunes® store and Google Play™ or visit [www.forane.com](http://www.forane.com) for more information.

### **About Arkema**

*A global chemical company and France's leading chemicals producer, **Arkema** is building the future of the chemical industry every day. Deploying a responsible, innovation-based approach, we produce state-of-the-art specialty chemicals that provide customers with practical solutions to such challenges as climate change, access to drinking water, the future of energy, fossil fuel preservation and the need for lighter materials. With operations in more than 40 countries, some 14,000 employees and 10 research centers, Arkema should generate annual revenue of approximately \$8.1 billion, and holds leadership positions in all its markets with a portfolio of internationally recognized brands.*
